

PAIR OF RUBBER 400 FLOOR MOUNTS

PAIR OF RUBBER 400 MOUNTS

USE:

- Rubber mount: Can be used to support heavy loads.
- Each Rubber mount is equipped with a moulded-in 40 x 20 x 395mm aluminium strip, used to mount the external unit.
- The cavities located in the bottom of the Rubber mounts allow placement on a roof or on gravel without damaging roof surfaces.
- The Rubber mounts are produced from recycled tyres and provide highly effective and economical anti-vibration pads.
- Rubber 400 x 130x 50 mm – Item code: AS400PMBFP

SPECIFICATIONS:

- AS400PMBFP per pair: Strapped packaging
- Weight: 4.2kg
- Supplied with screws and bolts to rail-mount the unit

TECHNICAL DATA:

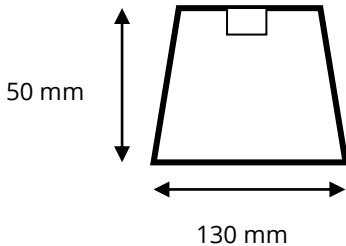

- 2 Rubber 400 x 130 x 50 anti-vibration floor mounts. Compatible with all air conditioning unit types with a maximum weight of 300 kg.

Advantages:

Highly effective anti-vibration properties.
